Park Trip Nov. 9

Peggy Fleming Stars In 1969 'Ice Follies'

Peggy Fleming, the exciting brunette ice skating star who has captured three straight world championships, will head the line the 1969 "Ice Follies" at the St. Louis Arena early next month.

A special trip to the "Ice Follies," sponsored by the Granite City park district, will take place Sunday, Nov. 9, Harold Brown park superintendent announced. Since the announcement, 66 tickets have been reserved for the 6:30 p.m. performance, with the remaining 134 tickets still available on a first-come, first-served basis.

For the past two years, the park-sponsored "Ice Follies" trip has been a sell-out. Brown reminded local residents today, "The seat is exceptionally good again this year," the official noted, pointing out that the district's seating allocation is located in the first five rows of the arena's center circle.

Tickets, at a discount price, cost \$3.75 for adults and \$2.25 for children. An additional \$1 fee per person is charged for round-trip transportation to St. Louis. Four chartered buses will depart from the Wilson Park rink pavilion parking area at 5 p.m. Nov. 8, Brown advised.

Deadline for ticket reservations is Friday, Oct. 31, with bookings accepted at the Wilson Park office, or by calling 877-2089.

Speeding Ticket Issued

Fred Griffin, 107 Abbott street, Venice, was issued a speeding ticket at 8 p.m. Monday at Nameoki road and Madison avenue.

Salvation Army Aids 270 Persons in 3-Month Period

Assistance was given a total of 270 persons in the welfare program of the Salvation Army during July, August and September, it was reported at a meeting Monday afternoon of the Salvation Army Advisory board at the Grand Cafe.

Edward Stone, president, presided at the meeting during which Mrs. Lily Chaboudie was selected to serve as this year's chairman for the "Tree of Lights" Christmas basket campaign. The Welfare report stated there were 65 cases, with 61 welfare orders, 32 meals and four lodgings.

A service report announced 261 activities for the quarter, attracting 3902 participants. The Salvation Army provided 900 gift packages for members of the Armed Forces at the inductee centers, Capt. Harold Thomas reported. The organization visited 15 institutions; two visits were made to Scott AFB, and 388 patients were visited. Each of the patients was given an opportunity to select gifts from the organizations gift cart.

Capt. Thomas also announced in this quarterly report that 1479 volunteer hours of service were recorded.

Lt. Gov. Simon Endorses RIDC Terminal Plan

Illinois Lt. Gov. Paul Simon has become the sixth elected official and the third endorser of the Intermodal Terminal Concept proposal advanced by the Regional Industrial Development Corp., Dr. Delyte Morris, chairman of the board and president of Southern Illinois University.

The concept calls for the new metropolitan airport planned for the bi-state region to be the center of a massive transportation complex which would integrate barge, rail, highway, pipeline and air terminal facilities.

Lt. Gov. Simon said: "My strong feeling is that what must be done is not simply locating an airport, but tying that airport in with the many changes which we must contemplate in the total field of transportation for the metropolitan area. I heartily endorse your concept of the intermodal transportation complex."

Plan Widely Approved

Political endorsement of the proposal, which is the only one of its kind in the country, has been given by Illinois Senator Charles Percy, Congressman Melvin Price of East St. Louis and East St. Louis Mayor Alvin C. Fields, and by Missouri Senator Stuart Symington and Thomas Eagleton.

Ten local governmental jurisdictions also have endorsed the plan. They include the Madison county board of supervisors, Monroe county board of commissioners, the city of East St. Louis, city of Edwardsville, city of Kirkwood, the East Side Levee and Sanitary district, the Southwestern Illinois Metropolitan Area Planning Commission, the Franklin county court, St. Charles county court and the Bi-State Development Agency.

RIDC is a non-profit, civic corporation organized to stimulate economic growth of an eight-county bi-state region that includes Madison, St. Clair and Monroe counties in Illinois and Franklin, St. Louis, St. Charles and Jefferson counties and the city of St. Louis in Missouri.

Additional School

with other governmental agencies.

It was learned Tuesday that the bills referred to by Mayor Roy, House Bills 1874 and 1876, amendments to the Illinois School Code, were vetoed by Gov. Ogilvie on Oct. 6.

Davinroy said that even with the election date not changed from a Saturday to Tuesday, an effort will be made to establish a polling place at Eagle Park.

Seek Construction Funds
Further discussing construction of the community center and its contemplated uses in terms of a centralized location for programs involving young people and adults in Eagle Park, Salmond and Clinton Thornton, association vice president, said completion of the building hinges on securing additional funds.

The 24x48-foot concrete block structure, to be brick veneered when the project resumes, with the interior finish being constructed under the supervision of Thornton.

"We really need some financial help to finish the building," Salmond said, noting that several school board members have contributed to the project. Close to \$1800 has been put into the project and an additional \$2000 probably will be necessary to finish the job, he related.

\$308,000 Budget for Center
Briefly discussed Monday night was a tentative budget for the Venice-Lincoln Technical Center, Supt. John O. Pier said. The original budget figure of \$437,499, submitted to the state two months ago, was slashed to \$333,326. However, he said, approximately \$33,000 has since been added.

The adult vocational training center is financed solely by federal and state funds, and operating and staffing of the facility remains under control of the Venice school board.

Included among major items deleted from the budget was \$45,000 for offset printing equipment. About \$20,000 in other equipment sought for the center also was eliminated, Pier said.

Expansion Urged
The superintendent noted that in recent meetings in Springfield, state school authorities and public aid officials continued to advocate expansion of programs offered at the center and expressed opinions that the growth potential of this area for such a training school is "tremendous."

He reported that programs at similarly-operated federal and state-supported vocational schools at Matton and Danville have been curtailed this year and the Eldorado center recently was closed. Lack of attendance and interest appeared to be the reasons, Pier said.

"Participation in Venice continues to increase and we are definitely being encouraged to

Charles Elmore, 69, Dies of Heart Ailment

Charles E. Elmore, 69, of Apt. 11 Venice Homes, died at 8:15 a.m. Wednesday at John Cook-Veterans Hospital in St. Louis of a heart ailment. Hospitalized for four days, he had been in ill health for 11 years.

A native of Chicago, Mr. Elmore lived in this area for the past 10 years.

He was employed as a construction pipefitter for 25 years and held membership in the United Association of Plumbers and Pipefitters. Mr. Elmore was a veteran of world war I.

Surviving are his wife, Helen; three sons, William Elmore of Joliet, Ill., Robert Elmore of St. Louis and James Elmore of Anza, Calif.; a daughter, Mrs. Albert (Muriel) Montani of San Gabriel, Calif., and four grandchildren.

Funeral arrangements are given, in today's obituary column.

Madison Rotarians Confinque Campaign

The current membership drive was discussed by the Madison Rotary Club members Wednesday during a luncheon meeting at the Madison Recreation Center led by John Sedlak, program chairman. He listed classifications open to the club.

Entertainment was furnished by Paul and Mark Lisowski, both students in the Madison elementary school, who played accordion selections.

Richard Sues, president, announced the club was listed 39th out of 48 clubs in the district membership.

He also told the group that Rotary District Governor William Gerdes is still hospitalized.

expand the curriculum now offered to area residents," the administrator said.

Study Title III Program
If details can be worked out satisfactorily, Pier said, a new Title III program will be added at the Venice-Lincoln Center next year.

He explained that Title III involves vocational study courses not taught at the center, designed for potential or actual students. Pier cited an example of a youth wishing to become a barber, who if qualified to enroll in a trade school where barbering is taught, could have his tuition paid under the Title III program.

Board Member Jack Tolliver and Supt. Pier, who serve as Venice representatives on the Special Education Region I advisory board, reported plans to lease the lower floor of a Sedlak funeral home building at 2801 Madison avenue as administrative offices.

Tolliver said several locations were investigated, with most found to lack adequate parking areas or asking excessive leasing rates.

State Offers

Granite City could finance its share of the drainage line cost with motor fuel tax funds. They also stressed that no surface water from the improvement way would be directed to Dorey's lough. The drainage would be to the Nameoki area ditch and to Long Lake.

Council members voted approval for the city to enter into an agreement with the state highway department for installation of the 60-inch line with MFT funds.

Other Drainage Problems
The aldermen also discussed other drainage and street projects throughout the city. These included Palmer avenue, St. Paul avenue, Maryland Heights and the 2400 and 2500 blocks of State street.

Council members accepted a petition signed by 73 residents along Palmer avenue, requesting curbs and gutters to provide drainage. The improvement is being scheduled under the city's motor fuel tax program, but no date has been set on a call for bids. City Engineer Kleberger said the plans have been forwarded to the state highway department.

Alderman Green called for immediate action on the petition, and several aldermen noted the water conditions, saying residents had to wade water when alighting from their cars in the 2800 and 2900 blocks of Palmer.

Alderman Dallas said he had talked to the residents and explained the procedure usually required six to 18 months for motor fuel tax projects, and several other aldermen commented that the project "will have to get in line with other requests."

"If we keep approving these smaller MFT projects, we'll never get improvements for major thoroughfares such as Johnson road," Alderman Parmley brought out.

"City Could Die"

He was joined by Alderman Baker, who predicted, "Granite City will die of stagnation if we don't improve our major thoroughfares—Pentagon road, Johnson road and others."

"You talk about the down-

town area dying," Baker continued, "the entire city will die if people can't get in or out."

Engineer Kleberger said the Johnson road improvement should be ready to start next spring.

Baker asked the engineer for an MFT project priority list. The engineer replied he had a list of projects, but there was no designated priority other than Johnson road. Copies of the project listing are to be distributed to the council.

To this Mayor Parmley commented, "We've had many MFT priority lists, but we never follow them."

\$300,000 a Year

Basrich said he saw no reason for concern over small projects being sandwiched in to give improvements to various sections of town. "We get about \$300,000 in MFT funds each year, Johnson road is to cost about \$160,000, so what is there to worry about?"

Robertson asked for installation of a \$4000 drainage line for St. Paul avenue in Yonkers Colonial subdivision, with the line to Idaho avenue to be installed with motor fuel tax funds.

Poulos complained that drainage was poor in the 2400 and 2500 blocks of State street with pockets of water on the asphalt surfaced street.

Baker added that residents of Maryland Heights have needed

drainage for years along their streets where water has been standing since the July rains and now is turning green.

He asked Street Supt. Warfield to inspect culverts in ditches at driveways to determine if they can be opened. Warfield said that in the past it has been the householders responsibility to furnish culverts, but that he would try to provide drainage when manpower in his department becomes available.

Baker asked that the streets in Maryland Heights have been on the motor fuel tax improvement list for a long time. Nann added that he had projects planned for Harding avenue and Roosevelt street in West Granite.

Alderman Dawes called for a warning horn to be replaced on the sanitary sewer system lift station at Clark avenue and Terrace lane. He said the present system with warning lights at police headquarters has not proven satisfactory and in recent rains, the lift station has gone out, causing basements to flood in the area.

"The people want the horn replaced, and maybe we should have the present warning system gone over," Dawes added.

Back Tax Collector Offers to End Contract

Paul Meyer of St. Clair Securities, contract collector of delinquent real estate taxes for Madison county, offered to terminate a 10-year agreement with the county this week if a test case is instituted in court to determine the legality of his services.

He claimed that his role as private collector for the county is authorized under state statutes and is not illegal, as was claimed by a member of the county board of supervisors last week.

During the past two years, Meyer has collected more than \$265,000 in back taxes and received a commission of \$22,615. Back taxes on the delinquent roles totaled more than a million dollars when he undertook the task two years ago.

Rodger Elble, Wood River township supervisor, said last week that Meyer should be dismissed and the fees reclaimed on the basis of a state supreme court decision. He claimed the collection of back real estate taxes was the sole responsibility of county Treasurer John Maeras in his position as the county collector.

Meyer said collectors have compiled and published delinquent lists, have applied to the courts for judgment and offered property for sale, and after the property is sold, the collector's job is finished.

Meyer cited a 1961 state law which authorizes a county to appoint a person to collect it's back real estate taxes.

His agency also collects back real estate taxes for St. Clair county.

Accident Report Change

A check of traffic accident records Wednesday showed that a parked car owned by Jacob Hinterser, 3707 Fair Oaks drive, was struck by an auto driven by Edward Hughes, 2833 Benton street, at 12:40 p.m. Saturday on the American Village shopping center lot, rather than as originally described in the report.

1st-Place MHS Will Visit Dupu Gridiron

Madison's football Trojans will attempt to maintain their undefeated record and improve their 2-0 Midwestern Conference mark at 7:30 p.m. Friday at Dupu.

Playing non-conference games for the past two weeks, Madison was held to a 0-0 tie with Mater Dei of Breese, largely due to 155 yards in Trojan penalties, and then triumphed over St. Pius of Festus, Mo., 35-0 while still encountering a penalty problem—80 yards.

Trojan Coach Al Vander Haar believes that at least part of the cause, officials' infractions, has been corrected.

"We've changed our lining up procedure. Instead of going to the line and setting, we stand up and check our alignment first."

"We'll have a lapse for a while. There is a lot to think about after a huddle, and the stand-up check will become a habit."

Scouting Report—Rain

Coach Vander Haar scouted Dupu's 13-6 win last week over Argenta Orena and commented to the Press-Record, "It's difficult to scout a game played in the rain, especially a down-pour."

"You don't see their offense because, when there's rain or snow on the field and on the

ball, a team only runs straight handoffs and the like.

"It was impossible to learn their patterns, they only tried a couple of passes."

"But, we know what we need to know. Their quarterback, Russell Portell, calls his own plays and really handles the club well. The key to the game may be, 'If we can stop Parker, we can beat them.'"

Awarded by Backfield

Dupu Tiger Coach Paul Stewart views the key to beating the opposition much like a mirror image of what Vander Haar believes that at least part of the cause, officials' infractions, has been corrected.

Stewart is concerned about "five backs. There's James, Shaw, Ackers, Chandler and Boyd. It's a really strong back field. If we stop one, we probably won't stop another."

"We'll attempt to put up a tough defense and hope the offense can do some scoring."

Return Upset Sought

Last season, the Trojans bumped Dupu 32-12 when the Tigers had built a 6-0 season record. This key Dupu three-way tie for the championship with Bethalto and Madison.

The Tigers may try to return the compliment of ruining an undefeated record. Madison is 4-0-2 this fall.

Vander Haar believes "this is a 'must win' game for us. We can't afford to lose, with Roxana coming next. OMS will visit Roxana Oct. 31 before hosting Bethalto Nov. 7."

"Dupu has a special incentive, because to beat us would make their season meaningful."

The probable starting Tiger offensive lineup: right end, Dan LaCroix, 165; right tackle, Dan Stewart, 200; right guard, Paul Krenn, 185; center, Steve Casey, 175; left guard, Terry Burton, 170; left tackle, Gary Middleton, 230; left end, Tom Spellman, 185; quarterback, Porter, 180; halfback Kevin McHale, 165; halfback, Tommy Thompson, 185; fullback, Sam Parker, 155.

Defensive Tigers to watch are middle guard, Sam Kemp, 160, and alternating as guard and linebacker, Leon Thompson, 155, and Mike Steep, 150.

Prothro to Return

Trojan Courtney Prothro, who suffered a knee injury two weeks ago, will be back in uniform Friday but will not start.

In league play this season, MHS has topped Triad 26-6 and Highland 35-6.

Its other tie was a scoreless game with Rosary of St. Louis, and it has edged O'Fallon 13-12 in non-conference play.

The Dupu 1-2 Midwestern record consists of a 7-6 squeaker over Bethalto and stout losses to Triad 28-0 and Kansas, 27-0, addition to the victory over Argenta Orena. Dupu has defeated Western Military Academy of Alton 34-0 and lost to Mascoutah, 22-12.

The 1970 VW will stay ugly longer.

Just what both Volkswagen wrought this year?

A longer-lasting engine, that's what.

It's more powerful than the old engine. (Top speed: 81 mph vs. 78 mph.)

It has better acceleration.

But most important, it doesn't have to work as hard to get you where you're going.

Thus, according to every calculation down to man, it will last even longer.

And just to make sure the engine and every other VW part leads a long, happy life, we have another surprise for 1970:

The Volkswagen Diagnostic Checkup. Now before the name scares you away, listen to what it is.

VW Diagnosis is an exclusive service checkup by specially trained technicians using specially advanced checkups free.

What could be a better deal than that? You buy a bug. We take care of the bugs.

Host Tigers Threat to GC Hold on First Place

The Southwestern Conference-leading Warriors will travel to meet the title-contending Edwardsville Tigers on the enemy gridiron at 8 p.m. Friday. With a 31-1 record to GCIS 4-0, the Tigers pose a formidable threat.

During the five years Granite City Coach Wayne Williams coached at Wood River high school, his teams never lost to Edwardsville. For Friday's game, he is hopeful this trend can continue.

"Edwardsville is not worse or better than East St. Louis. If we play good ball, we'll beat them. If we don't play solid ball, we'll lose."

Edwardsville was thumped by East St. Louis 35-6 and the following week East St. Louis was thumped by Granite City 21-6. Therefore, will Granite City Perhaps, but the Tigers have double-thump Edwardsville?

shown considerable ability in their other games.

Beat Alton By 5 Points
Edwardsville's conference record includes wins over Wood River 27-0, Collinsville 28-6 and Alton 13-8.

Granite City in conference play has won over Collinsville 45-8, Alton 16-14, Wood River 34-8 and East St. Louis 21-6. Thus, Edwardsville fared better against both Alton and Wood River than did the Warriors.

Morris Bradshaw to less than 90 yards rushing.

It seems the Warriors must hold that same Tiger in order to win. Williams describes Bradshaw as "the best back in the conference; there's no doubt about it. If we can't stop him, we'll be in trouble."

Bradshaw has scored ten touchdowns and has totaled 846 yards rushing in six games so far this season. Last year, Bradshaw was the major cause of

Granite City's homecoming game 34-26 loss to the Tigers.

Besides Bradshaw's affinity for TD's, place-kicker Kevin Pratt has converted 10 of 12 attempts.

Curiously, the current Southwestern Conference standings are, in reverse order, from bottom to top, identical to the Warriors' schedule.

Ice Hockey Program Open to Boys 9-16

Player openings still exist in all divisions of the local boys' hockey program. Interested boys nine to 16 years old may report to the Wilson Park ice rink at 5 p.m. Monday.

The Squirts division, for 9-10-year-old boys, will practice every Monday from 5 to 6:30 p.m. and Pee-wees (age 11-12) will practice Mondays from 6:30 to 8 p.m.

Soccer Cougars Beat EIU 3-2

Southern Illinois University-SW's soccer team turned back a previously unbeaten Eastern Illinois University club, 3-2, Tuesday afternoon on the winners' field. The SIU Cougars have now gone 15 straight games without a defeat with only a 3-3 tie with a strong Quincy College team marring their record.

SIU-SW's all-time scoring leader, big John Caranza, turned the "hat trick" as he booted in all three Cougar goals, two on assists by his scoring mate, Tom Howe. Caranza's trio of goals equaled his last season's total of 15 and the Cougars still have three more contests in the regular season, an almost sure post-season tourney bid.

Brighter Outlook For GC Steel Co. In 4th Quarter

Granite City Steel Co. had net income of \$476,000, or 11 cents per share of common stock, for the third quarter this year, and net income of \$28,000, or one cent per share, for the fourth quarter ended Sept. 30, it was announced by Nicholas P. Veeder, chairman of the board and chief executive officer.

The company had a loss of \$251,000, or 57 cents per share, in the third quarter last year, as the result of the premature failure of a blast furnace, and a loss of \$1,020,000 or 25 cents per share, for the first nine months of last year.

Veeder said Granite City Steel's shipments in the third quarter this year "included an unusually high proportion of semiprocessed steel for domestic and export customers which reduced the overall profitability of the product."

The company's Blast Furnace department and Basic Oxygen Furnace plant achieved a record level of production in the third quarter, although other plant departments did not show comparable improvement.

The company shipped 235,000 tons of flat rolled steel products in the third quarter this year and produced 388,000 tons of ingot steel compared with 250,000 tons and 382,000 tons in the third quarter last year. Net sales for the third quarter this year were \$47,184,000 compared with \$38,943,000 in the same period last year.

"The third quarter demand for steel was maintained at an unusually high level by the strong world market," Veeder said.

Steel will continue to operate at a high rate during the remainder of the year, he added.

The company's board of directors voted today to continue the recent policy of omitting payment of quarterly dividends.

Veeder said base price changes on major products in the third quarter increased the cost of the normal product mix about 4%, "barely enough to cover increased labor costs and increased prices of virtually all raw materials."

In addition to higher costs for raw materials and supplies, we are also absorbing a substantial portion of the cost of a recently-enacted Illinois state tax. Our labor costs increased in the third quarter for substantial improvements in pension benefits and general wage increases.

"During the first nine months of this year, it was necessary to borrow under a short-term, open line of credit with a group of banks. With our financial position improving, we were able to pay off on Oct. 10 the balance of \$3,000,000 standing under this line of credit."

Granite City Steel produces plate, hot rolled bands, hot and cold rolled sheet, galvanized sheet and other flat rolled steel products for manufacturers and other steel users in a 25-state regional market.

Martin Luther Film To Be Shown Sunday

A film on "Martin Luther" will be shown during the evening worship hour at Niederrhein United Methodist Church, 1210 Broadway, Alton, Sunday, Oct. 26.

The service in observance of Reformation Sunday, is open to the public.

Stop Sign Violation

John W. Hill, 36, of Pontiac, Mich., was arrested by Venice police at 8:20 p.m. Tuesday on charges of passing a stop sign at Calhoun and Weaver streets.

He posted his driver's license pending a magistrate hearing Nov. 5.

Only Personal Vacations Listed by Name-Barton

Assessment figures published last Monday in an alphabetical listing of Granite City taxpayers' names constitute new valuations on personal property only, Township Assessor James Barton explained today.

Barton said his office has received a large number of inquiries from taxpayers who believed the listing of assessments under their names involved real estate.

The new valuations are listed only by legal description and not under the name of the taxpayer, Barton said.

At the same time the assessor explained that many persons misinterpreted visits by assessing field teams prior to publication of the assessment list as playing a role in the assessment of new valuations announced early this week.

DeMoays Install Senior, Junior Officers

Dwayne Pritchett was installed as master councilor of the James Stuart Chapter Order of DeMolay in a public ceremony Tuesday evening at the Masonic Temple.

The Granite City Chapter of Chevaliers, with George Slatoff as installing officer, conducted the ceremony. Those assisting were Gilbert Watson, senior steward; Roy L. Wilms, Jr., junior councilor; Robert Kennedy, senior deacon; Robert Maxwell, marshal, and Everett Steele, chaplain.

Bethel 43 International Order of Job's Daughters, led by Queen Lynn Jacobson, assisted in the ceremony.

"Formed the cross" at the altar following the 9 o'clock Interpolation given by the installing chaplain. Miss Beth Ann Ledbetter presided at the piano for the ceremony.

CALVARY CHURCH GIRLS AUXILIARY CORONATION

Twenty young girls of the Calvary Baptist Church were recognized during a Girls Auxiliary coronation held at the church Sunday evening. The annual candlelight ceremony had a "go and tell" theme.

A large poster, featuring a map of the world, a cross and a Bible in blue and gold glitter, centered the girls' attention. To greet the young ladies as they stepped forward, candlelighters for the ceremony were Rhonda Miller and Virginia Wolf.

Introduction of the GA program was made by Mrs. Ruth Moser, and Mrs. Margaret Williams read a poem giving a definition of the coronation. The girls had worked on GA steps during the year and some retained scrapbooks on their studies, demonstrations and world's mission activities. The scrapbooks were submitted to a reviewing council and approved by the state GA director, Miss Evelyn Tully.

The first group recognized, maidens, consisted of Joyce Pitts, Rita Williams, Debra Harvey, Cynthia Wiley, Linda Thompson and Pamela Williams. They were presented with GA emblems by their counselors, Mrs. Maxie Stamps and Mrs. Margaret Williams.

Ladies in waiting, Shirley Young and Robin Stanton, received their emblems from Mrs. Stamps and Mrs. Williams.

Princesses, Cheryl Smith, Kathy Morris, Michelle Edwards, Christi Clark and Rebecca Edwards, were presented with emblems by Mrs. Stamps, Mrs. Williams and Mrs. Phyllis Knight.

Queens and their attendants were Kathy Williams, attended by Linda Williams; Dianne Moser, attended by Terri Holder; and Elaine Harper, attended by Michael Clark. They were crowned by Mrs. Williams, Mrs. Ruth Moser and Mrs. Knight.

Queens with scepters were Debra Borth, attended by John Williams, and Colleen Dagan, attended by Steve Lowe. They received their scepters from their counselors, Mrs. Mary Patterson and Mrs. Ruth Clark.

The queen regent, Marsha Cornett, attended by Jamie Cornett, was presented a regal cape by Mrs. Lois Bowers.

The highest honor in the GA program, queen regent in service, was awarded to Miss Diane Borth. She was attended by Cheryl Williams and Johnny Richardson.

The program ended with a dedication song, "So Send I You," sung by a trio, Misses Rhonda Miller, Barbara Bevins and Shirley Williams.

Mike Bird, a son of Mr. and Mrs. Ronald Eaton, 2409 East 25th street, is a patient at St.

Elizabeth Hospital Room 415, where he is undergoing a series of tests. He is a student of Granite City high school. Visitors are urged to visit.

How Rotary Club Got Its Name

The topic presented to the Granite City Rotary Club at a luncheon meeting Tuesday in the YMCA. The speaker, Prof. George Wilkins, a member of the club and past Rotary district governor, was introduced by William Thoeke, program chairman.

Wilkins related that the Rotary Club was started in 1905 in Chicago when four young men got together through business association and held meetings on a rotating basis at each other's offices. They were by occupation an attorney, coal dealer, tailor and mining engineer.

By 1916, sixteen clubs had been formed in this country and the member's had broadened activities to include service to the community.

At present, there are 657,000 men holding membership in 13,901 Rotary Clubs in 146 countries throughout the world.

The guest speaker stressed that Rotary Clubs have four avenues of service including fellowship, community, vocational and international. The Granite City Club in its 44 years has donated about \$40,000 to civic projects in this community.

John Krekovich, membership chairman, spoke to the 45 members present, and reported the club is now 12th among 48 clubs in the district in attendance record.

Carl Mathias, club president, presided at the business session at which time the club agreed to give \$110 to the United Fund as a club donation.

Glen Thornburg, ticket chairman for the Nov. 6 "chili day," announced a transistor radio will be the prize to the member who sells the largest number of tickets. Serving hours for the chili project will be from 11 a.m. to 1 p.m. and 5 p.m. to 7 p.m. at the YMCA.

Capt. Harold Thomas program chairman for next week's meeting, will have Major Leon Turner, director of services, extension and public relations for Salvation Army of St. Louis as the guest speaker.

Donna Ferro, 2520 Delmar avenue, is among 20 students at Southern Illinois University-Southwestern who will place an equal number of professors under surveillance for a year in search of professional teaching secrets.

The students are enrolled in the instructional aids program which enables students to participate in teaching after graduation to work closely with faculty members in a practical teaching experience.

The program, in its third year, will involve the students and professors in a cooperative effort covering all aspects of the classroom situation. The Southern Illinois Builders Association, through its Industry Advancement Foundation, is opening its fourth annual model building contest.

The project this year is to design and construct a model of a youth recreation center. The contest is open to all high school sophomores, juniors and seniors from 20 counties in southern Illinois.

The purpose of the competition is to uncover future talent for the construction industry. This year's problem poses an unusual challenge as a youth recreation center is an imaginary facility to be created entirely for the enjoyment and pleasure of young people.

The finished project should reflect the kind of building a student would like to have in his own area. The designer is free to include facilities as a discotheque, a pool, a health club, a theater, a game room or anything else for which he can visualize a need.

Brochures are being distributed to 100 schools in the 20 counties. The foundation is offering 20 scholarship awards totaling more than \$1500 to the competition winners. Student awards range from \$500 for the first prize to \$25 for honorable mentions.

The models will be selected primarily on the basis of superior craftsmanship and design excellence. Additional awards will be given to schools whose students have the greatest number of award winners.

Registration may be made with the industrial arts teacher or principal at high schools in the area. Registration opened this week and will close Dec. 12. The winners will be announced Feb. 27.

Southern Illinois University-Southwestern, will hold its seventh annual choral clinic for senior high school students Saturday, Oct. 25, in the University Center ballroom. Students from Granite City and Venice high schools will participate.

Prof. Leonard Van Camp, director of choral activities at SIU-SW, will be the clinician. Subject of the day, he said, will be achieving understandable choral dictation using high school voices. He will discuss these problems with area high school music directors at 11:30 a.m. and suggest solutions.

High schools within a 125-mile radius have been invited to participate. According to Jane Wiesenmeyer, graduate assistant in choral music at SIU and manager of the clinic, more than 150 students from 23 schools are expected to attend.

From 9 to 10:30 a.m. Van Camp will rehearse the participants in Bortnisky's "We Thank Thee, Lord" and "Now April Has Come," arranged by Robert Shaw and Alice Parker.

The day's program will include a recital by soprano Sarah Turner, lecturer in music at SIU-SW, at 10:45 a.m. followed by the Madrigal Singers. At 1 p.m. the SIU-SW Concert Choral, under the direction of Van Camp, will sing.

Job Recruiting is Speeded Up at SIU

Recruiting by business and industry of Southern Illinois University 1970 graduates at Carbondale has speeded up this fall, with more than 200 personnel teams booked for interview dates on campus before Christmas, according to Herall C. Largent, placement services counselor.

Almost half of these firms—97—are scheduled for October, as compared with 68 last October, Largent said.

"This increased early activity is in line with national trends reported in financial journals," Largent said.

"We also have 11 firms coming in this fall for the first time or for the first time in several years," he added.

These new firms are Johnsonville Research and Engineering Center, Ortho Pharmaceutical Co., Jarvis B. Webb Co., U.S. Industrial Chemical Co., CIBA Corp., Interlake Steel Corp., Hurdman, Cranstoun, Penny & Co., Wynn M. Wagner, A. O. Smith Corp., American Hospital Supply Corp. and Atlantic Richfield Co.

A check of the personnel requirements of the firms scheduled for October indicates that students trained in the various areas of business and management are in greatest demand.

Powell Symphony Hall to Feature The Flock Friday

The Flock, one of the nation's most popular recording groups, will appear in concert at Powell Symphony Hall, St. Louis, at 8:30 p.m. Friday.

The seven-man rock group's long-play album "The Flock" has soared on the national charts. The Flock sound is a blend of blues, jazz, gospel, rock and country music.

It features the electric violin of Jerry Goodman, a classically trained musician, who has chosen to "liberate" the violin from centuries of formalized use and produces what he terms comicclassical-rock. Other members of the group are Fred Gluckstein, guitar and lead vocal; Jerry Smith, bass; Ron Karpman, drums; Rick Canoff and Tom Webb, tenor sax; and Frank Posa, trumpet.

Assisting on the bill is a young Chicago-based group called Flood. Members, all in their early 20s, are Pete Wukovich, lead guitar; Steve White, lead vocal; Barry Mraz, drums; and Erik Filipowicz, bass.

Friday's concert is the first in a series of four programs by top popular recording artists. It reflects a new policy at Powell Symphony hall of presenting leading artists from widely varying fields of music.

The remaining concerts will feature classic Delta blues singer Muddy Waters and his band on Nov. 14; Melanie, star of the recent Woodstock festival with the rock group Crow; singer Judy Waters and the Incredible string band, also featured at the Woodstock event, on Dec. 5. Tickets ranging from \$9 to \$4.50 are now on sale.

DAVID STOPPKOTTE

"Man of the Month"

Stoppkotte Is 'Sailor of Month'

Airman Third Class David Stoppkotte, who is with the U. S. Naval Air Facilities on Okinawa, was selected as the "Aircraft Maintenance Department Man-of-the-Month for September" according to a letter received this week by his parents, Mr. and Mrs. Howard Stoppkotte of 244 Dewey avenue.

The letter signed by S. H. Harsard Commander, U. S. Navy aircraft maintenance officer, stated: "Stoppkotte was one of several finalists who were considered for this distinction by a Board of Chief Petty Officers and other Senior Enlisted Men." Some of the determining factors for the selection of personnel to receive this award are exemplary personal conduct and appearance, outstanding professional performance, as well as sociability, self-expression and off duty achievements.

Only outstanding men in all of the above mentioned aspects of performance are selected for nomination by their Division Officers for consideration by the board. The most outstanding man is then chosen as the Aircraft Maintenance Man-of-the-Month.

"The Aircraft Maintenance Department is an integral part of the U. S. Naval Air Facility at Naha, Okinawa. As such, we provide maintenance services to support 1000 operations and ships and fleet aviation units of the operating forces of the Navy. In addition, support is given to other activities and units as designated by the Chief of Naval Operations.

"It is a distinct pleasure to have David as a member of this command, and I know you are proud of his contribution to our important missions in the Far East."

The 20-year-old serviceman joined the Navy for a four year enlistment and will have served two years in February 1970. He has been stationed on Okinawa since December 1968 and expects to return home in June 1970 for a visit.

'Logos' Dedication To Be Friday at ISU

The voice of Ambassador Adlai E. Stevenson will once again reverberate through the halls of Illinois State University Friday.

The scene will be the dedication of "The Logos," a sculpture in memory of the late international statesman in the courtyard of Adlai E. Stevenson Hall for the Humanities. The "Logos," a name reflecting the spirit of reason which Mr. Stevenson exemplified, is the result of a \$50,000 gift to the university by anonymous donors.

Fittingly, the ceremony will be on United Nations Day, beginning at 2 p.m. in Stevenson hall. Dedication of the Logos will take place an hour later.

Serving as master of ceremonies will be Edward D. McDougal Jr., of Libertyville, an attorney in Chicago, a close friend of the late ambassador, and director of the Adlai Stevenson Institute of International Affairs.

Instead of an address, the voice of Governor Stevenson will be heard once again on the campus which he visited often and where he attended high school. An award winning documentary radio program tape, featuring excerpts of speeches by Ambassador Stevenson, will be played for the audience. Members of the Stevenson family will be present for the ceremony.

SIU Campuses Enroll 35,154, Up by 3241

Southern Illinois University has announced a record fall term enrollment of 35,154 students on its Southwestern and Carbondale campuses.

The total is 3241 more students than were enrolled last fall and is about 10 times the figure for 1953, the year SIU began its meteoric enrollment climb.

The tabulation by SIU Registrar Robert McGrath shows 12,152 on the Southwestern campus, an increase of 17.6%, and 23,002 students at Carbondale, up 61.6% from last year.

The graduate school registered an overall two-campus increase of 4.6%, which McGrath said is "slightly higher than might be expected because of the situation." The graduate school enrollment is 4972 students.

The draft situation apparently had little effect on the usual men-to-women ratio. Men outnumbered women 21,473 to 13,681.

The Venice Band Parents club, a group of parents organized last year to support and encourage participation in instrumental music programs at Venice grade and high school, was commended for its efforts by the Venice board of education Monday night.

Board Member Jack Tolliver offered the club and student band members a formal commendation, following presentation of financial and activity reports by Sigmund Mulnick, club treasurer.

Leo A. Davinroy, Venice school board president, also praised the adult group. Members have sponsored fund-raising projects within the year to outfit the student musicians in new uniforms and also enable several band members to attend a drill instruction school at Rock Island, he reported.

It was noted that about 280 third through 12th grade pupils are now members of the Venice school band. Less than 600 students comprise the total number of pupils in the district in those ten grades.

The report said that funds earned by the parents and band students were derived from Band Tag Days, \$292 in 1968 and \$425 in 1969; chili supper, \$155; car wash project, \$118; candy sale, \$217 in 1968 and \$211 in 1969; and Christmas candle sale, \$300.

William Fechte serves as band parent president. Donald Mancil is Venice band director.

Also at Monday's meeting, a newly-organized chapter of the Future Teachers of America was granted a separate account in the district's activity funds, to permit handling of proposed money-making projects.

Mishap on Plant Lot

Autos driven by Ullrich Ross, East St. Louis, and Donald F. Huesche, Fairview Heights, collided at 1:50 p.m. Monday on the parking lot at General Steel Industries.

The Venice board of education re-activated the post of school district attendance officer Monday night, naming retired Venice Police Chief Robert Trower to the nine-month-a-year job.

Trower has been employed by the school district since the early summer months as night security officer to patrol the Venice grade and high school buildings on Broadway. He is the first attendance officer hired by the Venice district since 1959-60.

Board President Leo Davinroy noted that frequent break-ins at the two school buildings have been curtailed since the ex-chief was appointed to night patrol work, an action taken by the board when the district's insurance was threatened with cancellation due to numerous break-ins and vandalism.

Bus Ride Suspension Authority
In other business at Monday's board meeting, members voted unanimously to permit the superintendent of schools to suspend any student guilty of gross disobedience or misconduct from riding on a school bus.

Assistant Supt. Robert N. Vickers explained that student suspension from buses is now permissible under a section of the Illinois School Code, recently amended by the state legislature.

He said the new ruling provides for a hearing of the student's case at the parents' request, adding that parents of a suspended student will be notified of the school district's action.

Support Federal Tax Aid
Board members and others attending the meeting signed a petition urging Congressional support for the aid to education bill.

The petitions, currently being circulated throughout the state under sponsorship of the Illinois Education Association, the Illinois Congress of Parents and Teachers and the Illinois Association of School Boards, are to be forwarded to U. S. Senators Charles Percy and Ralph

T. Smith for presentation to President Richard Nixon.

A recent audit of Public Aid Law 38 funds granted the Venice district in 1967-68, totaling \$60,765, disclosed an overpayment of \$456, with the amount to be deducted from subsequent allocations, Supt. John O. Pier reported.

He also reported that reimbursement of \$727 under National Defense Education Act Title III has been authorized by the state on purchase of a \$296 milling machine for Venice high school.

Purchase of an A. B. Dick copying machine for use by teachers at Venice grade school was authorized at a cost of \$228, and a copy for repairing and roofing the Venice-Lincoln Technical Center garage was granted the Rogers Roofing Co. of Granite City on a bid of \$180.

Balances in the activity and revolving funds were reported as \$1254 and \$5332, respectively. Monthly bills approved for payment for the Venice schools amounted to \$6813, education fund; \$1448, building fund; \$3562, transportation; and \$229, junior college fund, tuition fees for four students.

Bills approved for the Venice-Lincoln center totaled \$8626. Individual payments approved included \$55 to Larry Smith for refitting shelves at the Venice grade school library; \$200, Venice Gas & Oil Co., for gasoline used in a driver education auto and other district vehicles; \$227, Hlava Auto Service, Madison, repair of motor equipment from mid-July; and \$96, Graybar Electric Co., assorted lamps used in visual aid equipment at the Venice-Lincoln center.

The regular meeting of the Madison city council has been changed from Tuesday to 8 p.m. Monday next week, Mayor Stephen Maurer announced.

The council will select a city flag from several designs that will be submitted by Madison high school students in a contest sponsored by the Tri-Cities Chamber of Commerce.

The student submitting the design selected will receive an award at the annual chamber dinner meeting at 6:30 p.m. Tuesday at Southern Illinois University-Southwestern, which the mayor is to attend.

stretch of four-lane pavement to complete the project for a Dec. 1 opening. Access to the highway will be via Niedringhaus avenue, 20th street, Rock road, North street and West Pontoon road.

City Considers Rezoning 7 Blocks of Nameoki Rd.

Taken under advisement Monday night by Granite City council members was a recommendation by the City Plan Commission for a seven-block stretch of Nameoki road to be zoned commercial.

The section would extend from Johnson road north to Pontoon road. At present the entire west side is zoned commercial, but there still are residential lots along the east side.

Council members voted unanimously to override the Plan Commission's denial of a zoning change for a residence at 1309 Edwardsville road, and granted a special use permit for operation of a beauty shop. Alderman Noon said there is space for parking five or six cars on the property.

Referred to Fourth Ward alderman was the Plan Commission's recommendation to give permission to East St. Louis & Interurban Water Co. to build a 2,000,000-gallon water storage tank on property owned by Henry Ross on the west side of Nameoki road north of Tri Mor Bowl. A shopping center is planned for most of the tract.

At the request of Alderman Robertson, who has long sought a north-south thoroughfare paralleling the tracks from Pontoon road south to 26th street, the Rock shopping center tract is to be surveyed by the city engineer for a 50-foot right-of-way.

Mayor Partney pointed out a survey had been made about 15 years ago, but the state highway department stalled the development, pointing out the roadway would enter Pontoon road through the tracks and Nameoki road where there is space for only eight or nine cars if the crossing gates are down or the traffic signal is red.

Approved was a Plan Commission recommendation for a

Advisory Team GI in Today's 'Mail Call'

A young Granite City soldier serving with an Advisory Team in Vietnam since his arrival overseas late last month, whose wife has yet to hear from him in person, and a Navy man on duty at Wildbey Island Navy Air Station are among the Quad-City military personnel listed in today's "Yule Mail Call."

The names and addresses of local servicemen and women still are being accepted for inclusion in the Press-Record's fourth annual "Yule Mail Call" program.

The pre-Christmas service is sponsored by the newspaper in the hope that readers will clip and save the Yule Mail Call lists, adding the names of the servicemen to their own Christmas mailing lists.

Early publication is necessary to guarantee delivery of greeting cards and packages to all members of the Armed Forces at home or abroad prior to the Christmas holidays.

Eagerly awaiting the first letter from her husband since he arrived in Vietnam on Sept. 25, Mrs. Linda (Wilcox) Beck is recuperating from an illness to which was added the worry of not knowing the whereabouts of her husband, Pfc James N. Beck.

Last Friday, Mrs. Beck received a letter from Sgt. Maj. William G. Prater Jr., the top enlisted officer in her husband's outfit, the sergeant-major wrote that Pfc Beck had arrived in Saigon two weeks earlier and was assigned to the Advisory Team in the Army's Second Corps area, near Ba Gi.

Sgt. Maj. Prater added that the local man was well and would be able to write home very soon.

It is known that U. S. Army Advisory Teams frequently work with South Vietnamese pacifist and irregular units, many times in remote regions where com-

munication is virtually impossible. Mrs. Beck was aware that her husband was headed for Vietnam in mid-September. After inquiring at the local Red Cross office, she was referred to the Granite City Army Depot, as the ARC was able to trace the soldier without specific information on his unit only with extreme difficulty and believed military authorities could reach him more quickly.

Her request for assistance to the Depot resulted in the letter from Sgt. Maj. Prater, Mrs. Beck noted gratefully.

A 1961 graduate of Granite City high school, Pfc Beck, 20, entered the Army on Feb. 27 and underwent basic and advanced training at Fort Ord, Calif. He was previously employed at A. P. Green Refractory Co.

Mrs. Beck is residing with her parents at 3037 Willow avenue. Her husband is the son of Mr. and Mrs. Jack F. Beck, 1635 Olive street.

In a letter to the Press-Record, Patrick Nesbit, serving in the Navy with Attack Squadron 126 at the Naval Air Station, Wildbey Island, Wash., requested that his name be listed in "Yule Mail Call."

The serviceman wrote: "I read with interest an article in a recent issue of your fine newspaper concerning the Yule Mail Call list that you publish at Christmas-time, each year. I think this is a marvelous idea and a fine gesture on the part of the Press-Record."

"I look forward each week to receiving my copy of the Press, so that I may keep up with local events. Thank you very much for your time. Keep up the good work, and keep those Press Records coming."

Local relatives, friends, church groups and service organizations are invited to submit the names and addresses of

Quad-City servicemen and women stationed at home or overseas for inclusion in the pre-Christmas lists.

Those contributing the servicemen's name, rank, serial number and full address, are asked to identify themselves on a postal card, letter or slip of paper which may be mailed or brought to the Press-Record, 1815 Delmar avenue.

The APO and FPO numbers must be included when applicable. If the area of overseas service is noted, the information will appear in parenthesis after the mailing address.

Polling Places For Con-Con Vote Listed

Official listing of polling places in which Madison county voters of the 53rd and 52nd Senatorial Districts will ballot in the Nov. 18 election of delegates to the Illinois Constitutional Convention is published in today's issue of the Press-Record.

Voters of the 53rd District will vote in Granite City, Namok, Chouteau and Venice townships of the Quad-City area, and Alton, Wood River, Godfrey, Edwardsville, Pin Oak and Jarvis townships in the county.

The other 14 townships of the county are located in the 52nd Senatorial District which also includes all of Calhoun, Jersey and Macoupin counties and eight townships of St. Clair county.

Each senatorial district will elect two delegates to the constitutional convention during the Nov. 18 elections on a statewide basis. The 116 delegates — two each from the state's 58 districts — will convene in Springfield Dec. 8.

Foreign Guns Still May Be Imported

Hunters and gun fanciers still may import that foreign gun legally under the Gun Control Act of 1968, according to Donald W. Kline, IRS Alcohol, Tobacco and Firearms chief special investigator for Illinois and Wisconsin.

The only difference under the new law, Kline said, is that such firearms may be imported only by a licensed importer or dealer. Kline pointed out that an importer or dealer located in the purchaser's state of residence may submit an application to the IRS director of the Alcohol, Tobacco and Firearms Division to import the gun for the individual.

The foreign shipper should be instructed to send the firearms to the licensee, Kline said, noting that in this way the delivery of the firearm would then be made between the individual and the licensee in the state of residence, with the dealer recording the receipt and sale as required by law.

W. T. Grant Opening 28 Stores in October

W. T. Grant Co. is opening 28 new stores during October, adding more than two million square feet of floor space to its retail operations, Melvin Gillie, manager of the Nameoki Village W. T. Grant store, announced today.

Fifteen of the new stores will open on one day—Oct. 30—representing more than one million square feet of the additional new floor space.

The new stores, located in 15 states, range in size from more than 50,000 to well over 100,000 square feet. The expansion is the largest in the company's history for any single month, both in the number of stores and in total square footage added.

The October openings will complete the company's 1968 expansion program, Gillie said, noting that for the year 52 new stores will have been opened and three others significantly enlarged. In 1968 the company opened 41 new stores and enlarged 11 others.

Canal Freight Topping 1968 Shipments

Freight shipments moving through the Chain of Rocks locks and canal during September totaled 4,320,301 tons to bring freight volume for the nine months of this year well in excess of that for the same period of 1968, according to a report by the U. September's freight movements were 167,662 tons below the all-time record total of 4,488,263 tons moving through the canal during the previous month of August, but were 865,251 tons more than shipped through the locks during September a year ago, the report shows. Shipments during September 1968, amounted to 3,455,000,050 tons.

The report said a total of 5647 vessels moved through the canal and locks last month in 960 lockages, identically the same number of lockages made during September 1968. Vessels using the locks in September included 630 towboats and 4400 barges, 21 passenger boats, two U. S. contractor boats, 232 private recreation boats, five government towboats, 19 government barges and 20 patrol boats.

Freight shipments included 2,441,250 tons of freight moving up river and 1,878,711 tons moving down river for a total of 4,320,001 tons of commercial freight. Added to this were 300 tons of government freight shipped through the locks.

Freight movements included: petroleum products, 506,500 tons up river and 120,906 down river;

NOTICE TO THE GENERAL PUBLIC

(How Safe Is Your Money?)

MOST REAL ESTATE TRANSACTIONS usually involve rather large sums of money (thousands and thousands of dollars) changing hands. As a matter of fact, Real Estate may be the largest and most important single "money deal" in most peoples' lives.

"SO HOW SAFE IS YOUR MONEY?" Most folks would be horrified if you accused them of being gamblers, or of playing "Russian Roulette" with their own money. Yet people in "Blind Faith" will hand their money, or sign legal documents over to perfect strangers or slight acquaintances simply because they read an ad in the paper or they see a sign over a door. "WHY?" Because most folks want to trust people they do business with. And, in most cases fortunately their trust is justified.

BUT, WHAT ABOUT THAT ONE TIME, something goes wrong — "A Life Savings Wiped Out," their sheer ignorance or intent to defraud. Sad, but true, it can and does happen. Of course folks will say "There are laws to protect us." True, but "can you get blood out of a turnip?"

AS REALTORS, it is not our intent to point a finger at anyone in our line of business, or alarm the General Public. But certainly in the interest of our Profession, we feel the General Public when dealing with any Real Estate Man (no exceptions) should check and get some answers to "How Safe Is My Money?" After all, it's your money. Check Character, Reputation, Business Experience, Financial Ability (ask your Lawyer or Banker) and Know How. Also, are there built-in "safeguards" in the event of Dissolution, Bankruptcy, Death, Larceny. Will my money be kept in a separate "Escrow Account" (required by law)? Finally, are my Legal Papers safe from Fire, Theft, Carelessness?

We believe "REALTORS" will check out 100%
